

PROJECT MANAGER (M/V)

ABOUT SKEYDRONE

Skeydrone, a wholly owned subsidiary of skeyes, the Belgian Air Navigation Service Provider, is developing and offering commercial software-based services to operators of unmanned aircraft (drones) and local authorities. The company envisages to become one of Europe's first U-space service providers by 2022. Besides UTM (UAS Traffic Management) services, Skeydrone is also active in the domain of drone data analytics and drone protection services.

ABOUT THE JOB

Skeydrone is looking for a skilled Project Manager with a proven track record in managing complex, multi-stakeholder technology projects.

As Project Manager you are responsible for:

- Coordinating the definition of project scope and objectives, involving all relevant stakeholders (internal and external) and ensuring technical feasibility;
- Meeting with clients to take detailed briefs and clarify specific requirements for each project;
- Developing project plans to monitor and track progress;
- Coordinating internal resources, clients, third parties and vendors to achieve the flawless execution of projects;
- Delegating project tasks based on colleagues individual strengths, skill sets and experience levels;
- Managing changes to the project scope, project schedule and project costs using appropriate verification techniques;
- Measuring project performance;
- Managing the relationship with the client and all stakeholders;
- Creating and maintaining comprehensive project documentation;
- Reporting and escalating to management as needed;
- Establishing and maintaining relationships with third parties/vendors.

In addition to the above listed responsibilities, you are coordinating Skeydrone's participation in various national and/or international Research & Development (R&D) and Very Large-Scale (VLD) demonstration projects.

ABOUT YOU

- You are an experienced Project Manager with a proven track record of successfully delivering change management / transformation projects in a complex business / technical environment (at least 5+ years of experience).
- You have a sound knowledge of project management software tools, methodologies, and best practices.
- You are a strong communicator with the ability to work with a wide range of internal and external stakeholders.
- You have excellent oral and written communication skills (Dutch, French and English).
- You are customer-minded with the ability to be client-facing and consultative, where needed.
- You are a team player with strong dedication to achieve common team goals.
- You have a "can-do" and "why-not-this" mentality: entrepreneurial, flexible and open mindset.
- You have a continuous eagerness to learn and develop your personal skills and competences further.
- An interest in aviation, drones and revolutionary emerging technologies is a plus.

WHAT'S IN IT FOR YOU

- Join a great (start-up) team in an innovative and high-tech organization.
- Opportunities for growth in various roles.
- A nice workplace in a modern building, where we value a good work-life balance and flexibility.
- A contract of indefinite term with attractive salary conditions & benefits.

HOW TO APPLY

Candidates must send their application (including as a minimum the following elements: full name, gender, date of birth, email address, mobile phone number and CV) to the following e-mail address: info@skeydrone.aero
